ALEJANDRA TAMEZ DE LA GARZA

Change Management & GenAI Enablement Leader

Austin, Texas | Bilingual: English & Spanish | tames.a512@gmail.com | linkedin.com/in/alejandra-tamez-delagarza

"New Ways of Working"

PROFESSIONAL SUMMARY

Change Management and GenAI Enablement Lead with a track record of turning organizational resistance into measurable adoption. Creator of the Enablement Flywheel methodology (Listen, Enable, Measure, Amplify) and the AI Use Case Prioritization Framework. Drove Microsoft Copilot adoption across 13,000+ employees in 12+ geographies at Applied Materials, built a 200 person Champions network, and delivered 80+ lunch and learns. Prosci certified. Passionate about putting people at the center of technology transformation and building cultures where curiosity is the default.

CORE COMPETENCIES

GenAI Enablement & Adoption Strategy	Organizational Change Management (Prosci)	Training Design & Facilitation
Stakeholder Engagement & Executive Comm	Microsoft Copilot & M365 Ecosystem	AI Use Case Identification & Prioritization
Champions Network Development	Cross-Cultural Communication (EN/ES)	Data Storytelling & Impact Measurement

PROFESSIONAL EXPERIENCE

Change Management & GenAI Enablement Lead

Applied Materials | Austin, TX | 2022 – Present | Global Supply Chain IT Services

- Drove Microsoft Copilot adoption across 13,000+ employees in 12+ geographies
- Built and managed a 200 person Champions network to sustain peer driven enablement
- Designed and delivered 80+ lunch and learns on Copilot and generative AI tools
- Created the Enablement Flywheel framework (Listen, Enable, Measure, Amplify) now used as a repeatable methodology across the organization
- Developed a proprietary AI Use Case Prioritization Framework with weighted scoring matrix and interactive dashboard
- Proposed and pitched the “Eureka” employee innovation platform to HR leadership, receiving positive executive reception
- Led OCM Operating Model proposal to embed change management at project initiation rather than as a reactive function
- Built a knowledge transfer solution for CTO/NPI engineering using Microsoft Stream and Copilot

Community Engagement & Last-Mile Innovation

Amazon | Previous Role

- Led a SNAP last-mile delivery pilot designed to serve marginalized communities
- Managed community engagement initiatives connecting technology solutions to underserved populations
- Developed cross-functional partnerships to bridge operational capability with community need

Executive Assistant to Founder/CEO

Arabella Advisors | Previous Role

- Provided strategic executive support to the founder and CEO of a philanthropic advisory firm
- Managed high-stakes communications, scheduling, and stakeholder coordination
- Gained foundational experience in mission-driven leadership and organizational strategy

Founder & Operator

Indigenous Women Artisans Partnership | Previous Venture

- Founded and operated a retail business partnering with indigenous women artisans
- Managed end-to-end operations: sourcing, logistics, sales, and community storytelling
- Built cross-cultural supplier relationships grounded in equity and mutual benefit

---

SIGNATURE FRAMEWORKS

The Enablement Flywheel

A four-phase methodology for sustainable technology adoption: **1. Listen** — Understand the real barriers, not the assumed ones. **2. Enable** — Meet people where they are with relevant, role-based training. **3. Measure** — Track behavior change, not just login counts. **4. Amplify** — Turn early wins into organizational momentum through storytelling and champions.

AI Use Case Prioritization Framework

A weighted scoring system that helps organizations move from “we should use AI” to “here’s exactly where to start and why.” Includes a scoring matrix, Excel workbook, and interactive React dashboard.

EDUCATION

Master of Public Administration (MPA)
Virginia Commonwealth University

Bachelor of Arts
Radford University

CERTIFICATIONS

- Prosci Change Management Practitioner
- IBM Certification (AI/Technology)
- Microsoft Certification

COMMUNITY & ADVOCACY
